Auto Run to New York on Wager.

To win a wager of \$100 that he could drive an automobile from Lexington to New York in 106 hours and thirty minutes, William Muir left that city Monday night at 10:30 o'clock and must arrive in New York Saturday morning at 9 o'clock. Accompanying Mr. Muir on the trip are Sid Hughes and Sherman Leigh. The trip will be made by the way of Cincinnati, Dayton, Buffalo and then on to New York.

The distance is about 1,000 miles, and counting six hours for sleep and one hour for repairs each day, the party will have to make an average of fifteen miles an hour while traveling in order to reach New York on schedule time.

Correct Styles in Millinery.

On every side you can hear the ladies talking of the beautiful millinery display at Mrs. Corne Watson Baird's millinery emporium on Main street. You can find everything that is new and distinctive in hats, toques, bonnets and millinery accessories. The great profusion of correct styles at Mrs. Baird's makes detailed descriptions impracticable, and you will have to visit this store to appreciate the beautiful and artistic display. The winter hats are just beginning to be called for.

Paris, Ky., Friday, October 13, 1905.

LIKE nearly every other fixed custom in Kentucky, court day gatherings are of Virginia origin, and date back to the good old colony times when we were under a king, and our Virginia ancestors were wont to consider attendance upon the monthly meetings of the county court as a bounded duty, which no good citizen would be justified in neglecting, no matter whether he had any business there or not. In Kentucky, from immemorial times, nearly everybody of the male persuasion has been in the habit of going to town on county court day. They go because they have always, from boyhood, "attended court;" and because their fathers and grandfathers and great-grandfathers and great-great-grandfathers always did so before them. It is a custom which nobody in particular originated, but which always existed among our Virginia ancestors for more than 150 years before the beginning of the Revolutionary war.

THE local political situation is unchanged. It looks now very much as if the Democrats will have a walk over in November. There is only one danger, and that is, the over-confidence of Democrats may cause some to fail to vote. Of course, the ticket will be elected; but, in order to win a decisive victory, every Democrat should vote, and not only vote but assist in the thorough organization of the party. The outlook is bright for success, but every Democrat should do all in his power to help along the good work. There is really no telling the majority we will roll up for the ticket if every Democrat does his full duty.

WHEN Richard P. Ernst, Chairman of the Republican State Central Committee, attempted to dictate to the Bourbon County Republicans and demand that they nominate a man for Representative to run against Mr. Woodford, he merely displayed his ignorance in regard to the situation in this county. He was quietly ignored by the Committee and some resented his interference. "Boss" Dick will have to investigate and learn a few things before he will be able to have his orders carried out by Republicans in this neck of the woods.

IN Louisville on registration day 11,323 Republicans registered, out of that number 6,138 were negroes. Can any one doubt for a second that the Republican party is not the "black man's" party? Yet, when they ask to be placed on the ticket they are told "you ruin all our chances to win, go vote and saw wood." Base ingratitude.

SECRETARY TAFT tells with the glee of a joke that the Filipinos charge the drouth in the islands to the Washington administration, but why not? Does not the Republican party in the United States claim the credit for the magnificent crops? The Filipino is right. The Republican party just tells the sun which way to go, and he goes it.

WHILE paying a premium on a life insurance policy now for the benefit of your wife and children, you have no assurance that you are not helping to pile up a fund to be used in the election of candidates of the Republican party—the party of trusts and such concerns as these big New York insurance companies.

LAST year the government paid the railroads \$40,000,000 for carrying the mails. This not only explains the interest the railroads take in politics, but also why the Postoffice department is not self-sustaining.

THE thief who is caught with the goods on him generally makes a clean breast of the matter. Otherwise with life insurance looters, who defiantly ask the public what it is going to do about it?

NAPOLEON once said that the proper thing to do was to find out what the enemy wanted you to do and then not do it. The Republicans want as many Democrats as possible to vote for the secret ballot. See!

"The Bourbon News, owned and edited by our best friend, Mr. Swift Champ, issued this week a souvenir edition of his paper. It is splendidly gotten up, rich in illustrations and filled full of information about the grand old county of Bourbon and its beautiful capital city. We desire to tender our congratulations to Bro. Champ."

† † †

Mt. Sterling Gazette:

"The History of Paris and Bourbon county just issued by the Bourbon News is one of the best of its kind we have ever seen. It is a gem of the printer's art, and well worth preservation. We congratulate Mr. Swift Champ, the clever owner of the News, and his associates on their enterprise and success."

† † †

Richmond Climax:

"The illustrated historical supplement to the Bourbon News made its appearance with the issue of October 3rd. We congratulate Editor Champ and his assistants upon their business push, as well as being proprietors of a paper in such a town as Paris, as beautifully portrayed in this supplement. It is a work to be proud of and well worth preserving."

† † †

Mt. Sterling Sentinel-Democrat:

"The History of Paris and Bourbon county issued a supplement to the most complete and best arranged editions of the kind we have yet seen. It is beautifully illustrated, with intelligent write-ups of the business enterprises, schools, stock farms, business men, etc., of Paris and Bourbon county, with a splendid advertisement of that hustling city and splendid county. It is a credit to Mr. Jos. B. Borders, the historian; Mr. Swift Champ, the editor, and to the citizens of Paris and Bourbon county who made it possible for Mr. Borders and Mr. Champ to make such a success of their undertaking."

† † †

Carlisle Mercury:

"Week before last we received the illustrated edition of the Bourbon News and being intensely interested in the history of Bourbon county as well as her capital city, we deferred notice until we could look into the merits of the News' effort, and we are free to pronounce it the "finest ever." It ought to be appreciated by the Bourbon people, and doubtless is, as they are an appreciative people."

The Time Will Come

When it will be a disgrace not to work when one is able.

When everybody will know that selfishness always defeats itself.

When the churches will not be closed as long as the saloons are open.

When to get rich by making others poorer will be considered a disgrace.

When the golden rule will be regarded as the soundest business philosophy.

When the same standard morality will be demanded of men as of women.

When all the true happiness will be found in doing the right, and only the good will be found to be real.

When the business man will find that his best interest will be the best interests of the man at the other end of the bargain.

When all hatred, revenge, and jealousy will be regarded as boomerangs which inflict upon the thrower the injury intended for others.

When a man who seeks amusement by causing pain or taking the life of innocent, dumb creatures will be considered a barbarian.

When every man will be his own physician, and will carry his own remedy with him—when mind, not medicine, will be the great panacea. —[Orison Scott Marden in Success Magazine.]

[Denver Post.]

The police and detectives are vigorously searching for a Chinaman known as Ah Tu Fing, who, until recently, conducted a restaurant on Twenty-second street, between Larimer and Market streets, and in which dog meat was served in a Chinese dish called chop suey.

Investigation was made Saturday, after a complaint had been lodged at police headquarters by Henry Hertz, of Eleventh and Broadway, who claimed to have purchased a dish of the stuff and, after eating it, to have become deathly sick.

Patrolman Peter Carr investigated the place, and he discovered a dog's head and hide in the small inclosure in the rear of the place.

Ah Tu Fing had seen the officer enter the place, and, fearing something was wrong, he disappeared, and has not been seen since.

Henry Freeman, who conducts a shooting gallery adjoining the restaurant, declares that he has frequently seen the Chinaman kill dogs, skin and dress them.

The Chinaman did a thriving business, and it is seldom that a party came down from the residence sections of the city to see the sights of Denver's Chinatown that they did not stop in the place and have some of Fing's chop suey.

Chief Delaney has ordered the Chinaman caught and prosecution of the severest kind is promised.

What is Generally Accepted As Correct.

Gray, in all its shades, has by universal acceptance been proclaimed the king of colors for Autumn, 1905. The most reliable fashion delineators hinted some time ago that this would be the case, so we took the hint and turned our thoughts and endeavors toward bringing together a contrasting assortment of correctly and stylishly modeled suits in all the various shades of gray.

Every true woman's aim is to be stylishly dressed, and no woman can be considered styilshly dressed unless she is correctly dressed. In getting a suit here you are assured of the latter; therefore, further argument would be superfluous—our suits being at once correct, stylish, and in every way first-class.

One graceful long e coated model at \$25 is composed of best quality homespun cloth in a stone gray shade. A model forming an ideal "all occasion" suit being serviceable, yet essentially dressy. Other long coated styles are made of novelty materials, cut upon mannish lines, and carry unique individuality with them, which make them distinct from all others.

Startling Mortality.

Statistics show startling mortality, from appendicitis and peritonitis. To prevent and cure these awful diseases, there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, of 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness."

Kentucky Rate Hearings.

Attorneys William Lindsay and Bettett H. Young, who were appointed by the Governor to represent the State in the freight-rate complaints now before the Railroad Commission, filed their plea with said commission Friday. In it they say that they believe the complaints made Guenther & Co., the Norman Lumber Company and others, are true, and further that one locality is grossly discriminated against in freight rates as against another locality, and that one firm or company in a certain town is being a lower rate than others in the same town or locality.

They pray the commission not to dismiss the proceeding, as asked by Attorney-General Hays, but to take up the complaint, hear testimony and pass on the question in the interest of the people all over the State, who are suffering from these extortionate and discriminating freight rates.

The first dose gave relief, and one bottle cured me." Sure cure for sore throat, bronchitis, coughs and colds. Guaranteed at Oberdorfer's drug store, price 50c and \$1.00. Trial bottle free.

The Corn Meal Era.

The use of corn as human food is growing rapidly, and people are finding it beneficial in more ways than one. A western observer declares that inside of fifteen years corn will be selling bushel for bushel for as much as wheat. He argues that the corn belt is already practically fully developed, while the wheat area is constantly enlarging, and that the restricted area and increasing use, corn will soon be worth as much as wheat. The argument is an interesting one, but not nearly so interesting as the rapid growth in public favor of corn meal and its many uses. From the standpoint of health corn meal deserves to increase in favor, and from the standpoint of palatability it yields to no other article of common consumption.

LION BEER.—If you drink beer drink the best—call for Lion Beer and you take no chances. tf

Ivory.

Ivory is, strictly speaking, obtained only from the tusks of the elephant, the finest of which comes from the east coast of Africa. This hard, heavy, fine-grained green, of Guinea, ivory is esteemed for its transparency, and because its light yellow, pale blue tints unlike the whiteness of other kinds, which becomes yellow, bleaches with age. The different species of African elephant supply almost all the ivory used in Europe. Its quantity is enormous. The British importation in 1900 was 1,175,000 pounds, which represents 60,000 tusks. One London firm sells 10,000 tusks yearly in billiard balls. Under so heavy a strain the supply must fail, but to fall back upon are remarkable deposits of mammoth tusk which have accumulated on the rivers discharging into the Atlantic ocean.

Blind Justice.

[Detroit Journal.]

The late Captain Joe Nicholson, to Memory dear in Detroit, used to tell of a long-time prisoner who had been in the house of correction while the captain ran that institution.

Just before his term expired the convict called the Captain and told him that justice was now done and that an honest man would start fresh in the world.

"But you have told me several times that you were innocent of the charge on which you were sent here."

"So I was, Captain Joe, and I can prove it. Here are the names of three witnesses. Get their statement and see whether I'm lying."

Just as a matter of curiosity the Captain complied and found convincing evidence of the man's innocence.

The convict was called in and indignantly asked why he had not used his evidence in getting a new trial.

"I'll tell you Captain. In my time I was acquitted three or four times when I was guilty, so when I was convicted of something I never did I just thought I'd even things up by taking my medicine without kicking. Besides that, it sort of tickled me to find that justice had missed me at every shot."

Seven-Year-Old Bank Robber.

[Sharon, Pa., Telegram to Philadelphia North American.]

Leonard Parks, seven years old, one of the boys who robbed the Niles First National Bank, last Friday, was caught yesterday afternoon in the rear of the Dollar Savings Bank trying to effect an entrance. He had a skeleton key, and had the rear door of the bank unlocked. Policeman Bruder who had been informed that the boy was prowling about the bank, watched him. So intent was the lad that he did not see the policeman until the latter placed him under arrest.

On account of the boy's extreme youth the officers of the First National Bank refuse to prosecute. It is now stated that the boy will be sent to a reform school. He is said to have rings and keys from stores and offices.

At the Niles Bank, Parks secured \$700, and only half of that amount was recovered.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from liver and kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by Oberdorfer the druggist at 50c a bottle.

Discussing Poverty When Fortune Comes.

[Utica, N. Y., Special to the New York American.]

During a council of the family of Luther Wheeler to provide for fighting starvation, in their reduced circumstances, a letter arrived announcing a bequest to Mrs. Wheeler from her father, who had died suddenly.

Born of rich parents, highly educated and in a position to command a place in the best of society in Massachusetts, Mrs. Wheeler, then Miss Martha Bush, twenty-five years ago came to Deansboro, Oneida county, on a visit. There Luther Wheeler, a poor boy, wooed and won her. It is said that the father of the girl was opposed to the match, because of the husband's social standing.

From then until a few years ago father and daughter saw very little of one another, although an irregular correspondence was kept up between the girl and one of the members of her family. The legacy was a complete surprise.

FRIENDLY WARNING.

No Need to be Alarmed About Stomach Trouble if You Use Mi-o-na—Cure Guaranteed by Clarke & Co.

The most frequent affection of the stomach is catarrh, as the delicate membrane which lines the stomach is easily irritated by harmful food or overeating. Keep a strict watch for the first symptoms of stomach trouble. Take this friendly warning in the spirit in which it is given and profit by it.

Shortness of breath, black specks before the eyes, furred tongue, dizziness, belching of gases or sour food, weakness and debility are all signs of catarrh of the stomach. There is no need to be unduly alarmed, for this

disease can be cured by Mi-o-na. It is the only remedy that strikes at the root of the evil and actually cures the diseases.

It does not contain opium in any form, acids, alcohol, or any other harmful drugs or chemical. It is a pure remedy that heals the irritated mucous membrane, stimulates the solar plexus, and aids digestion.

Ask Clark & Co. to show you the guarantee under which they sell Mi-o-na. It costs but 50 cents a box, and your money is returned if it does not help you.

Blind Justice.

[Detroit Journal.]

The late Captain Joe Nicholson, to Memory dear in Detroit, used to tell of a long-time prisoner who had been in the house of correction while the captain ran that institution.

Just before his term expired the convict called the Captain and told him that justice was now done and that an honest man would start fresh in the world.

"But you have told me several times that you were innocent of the charge on which you were sent here."

"So I was, Captain Joe, and I can prove it. Here are the names of three witnesses. Get their statement and see whether I'm lying."

Just as a matter of curiosity the Captain complied and found convincing evidence of the man's innocence.

The convict was called in and indignantly asked why he had not used his evidence in getting a new trial.

"I'll tell you Captain. In my time I was acquitted three or four times when I was guilty, so when I was convicted of something I never did I just thought I'd even things up by taking my medicine without kicking. Besides that, it sort of tickled me to find that justice had missed me at every shot."

Seven-Year-Old Bank Robber.

[Sharon, Pa., Telegram to Philadelphia North American.]

Leonard Parks, seven years old, one of the boys who robbed the Niles First National Bank, last Friday, was caught yesterday afternoon in the rear of the Dollar Savings Bank trying to effect an entrance. He had a skeleton key, and had the rear door of the bank unlocked. Policeman Bruder who had been informed that the boy was prowling about the bank, watched him. So intent was the lad that he did not see the policeman until the latter placed him under arrest.

On account of the boy's extreme youth the officers of the First National Bank refuse to prosecute. It is now stated that the boy will be sent to a reform school. He is said to have rings and keys from stores and offices.

At the Niles Bank, Parks secured \$700, and only half of that amount was recovered.

Before making the purchase, Alonzo McDonald, driver of Miss Adbell, winner of the Kentucky Futurity, worked Sadie Fogg a mile in 2:09½. Immediately afterwards Mr. Peck gave his check for \$12,500. It is claimed that this is the largest amount ever paid for a three-year old without an engagement.
